DETAILED ACTION

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a sand screen unit having axially spaced tubes on the external surface of the screen for delivering a particulate-containing fluid suspension to different axial positions. Particularly, the prior art fails to disclose unperforated tubes. Newly cited Jones et al discloses all of the claimed features except for the tubes being unperforated. To modify Jones would destroy the teachings of the reference that is to have the tubes perforated so that the fluid can exit at any point along the tubes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P Neuder whose telephone number is 703-308-2150. The examiner can normally be reached on Tuesday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David J Bagnell can be reached on 703-308-2151. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9327.
